One Duck Stuck

by **Phyllis Root**

One Duck Stuck...Free Interactive Adapted Reader

We love One Duck Stuck by Phyllis Root. We hope you will enjoy this full page Teacher Version of our Adapted Reader.

It is perfect for a whole group interactive activity and as a follow up center activity. Just laminate and velcro and you have a great lesson that teaches sequencing, counting and reading skills. We put it in a center with the book and our kids love putting it together on their own and reading to each other.

Please check out the full packet: One Duck Stuck....Literacy, Math and More
You will find the same reader designed half size for your students to assemble on their own. It also includes word wall cards as well as differentiated reading and math printables.

We sincerely hope that you and your kids enjoy this product. Please share your success stories with us, as well as your comments and suggestions.

With many thanks,

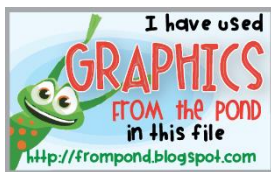

[Polka Dot Poodle](#)
